It is planned to launch the new web site as part of this promotion.

National Business Plan

The NEC wish to put together a National three or five year plan, we would like to involve everyone as this would give a plan for the organisation as a whole. It should have individual strategy's included i.e. Publicity, Training, Activities, etc and cover National, Areas and Groups.

As the plan is for the whole of the Federation, input will be sought from everyone. We ask that everyone start discussing what Plus should be in three or five years time and what we need to do to get there.
